

# Plug Charger Go

Mobile charging station for fast DC charging. This handy and portable device serves as a support for charging in emergency situations, but can also be used to charge a vehicle in any situation and location. Suitable for all electric vehicles. The charging station works independently and no integration with charging service providers is required. It is ideal as an accessory for electric vehicles.

## Suitable for:

- Car repair shops
- Bus depots
- Logistics parks
- Vehicle equipment
- Car washes
