The CEZ Group has become a shareholder in Rolls-Royce SMR

The CEZ Group has become a shareholder in the British company Rolls-Royce SMR Limited (Rolls-Royce SMR)

Subject to terms and conditions of the transaction documentation, CEZ will progressively acquire an approximate 20% interest in the British company. The closing of the transaction announced in October last year came after the approval of the relevant regulatory authorities. The two companies will therefore now collaborate to deploy the Rolls-Royce SMR's technology.
