

Inside Information

CEZ has placed a bid in the tender for a partner in Romanian nuclear plant Cernavoda

Today, CEZ Power Company has submitted an offer in a tender to participate in the building and operating of nuclear reactors 3 and 4 at Romania's nuclear power plant Cernavoda.

The details of the offer will not be published. Chosen participants will create a project joint venture with the state nuclear power corporation Societatea Nationala Nuclearelectrica (SNN), to complete both 720 MW units in a EUR 2.2 billion project. A tentative schedule is for commissioning unit 3 in 2014 and unit 4 in 2015 after 64 months construction.
